Jerry McLaughlin to host TV show

Jerry McLaughlin, new host of the television talk show 'Contact,' viewed every Saturday at 9:00 a.m. on Channel 13 (KTVW), said, "I hope to make 'Contact' more relevant to things that have more of an effect on the community."

Mr. McLaughlin, a student at the University of Puget Sound, is majoring in Business administration and marketing.

Jerry has extensive background in the field of public relations and advertising.

He was Publicity Chairman and board member of Charles Drew Sickle Cell Clinics of Pierce County, now known as the Tacoma Sickle Cell Project.

His duties included preparing and arranging radio and newspaper announcements, arrangement of television coverage and to design pamphlets, brochures, and movies and to make public appearance.

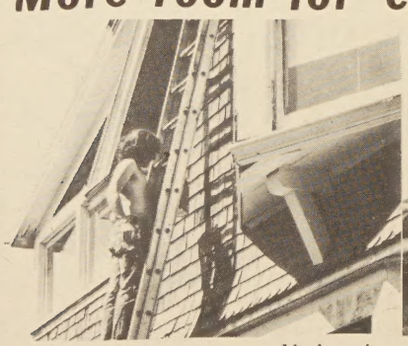
Jerry said, "I feel 'Contact' should be more responsive to the community's needs and more professional."

"I intend to make it more professional through the use of 16 millimeter color slides, and a better variety of graphic illustrations."

This weeks show is the last of a three part series on prisons reform. Guests are Benny McGee, Lloyd Harris, and Janie Howard, who will discuss alternatives and juvenile treatment.

'Contact' is a public affairs show, produced by the Metropolitan Development Council in conjunction with KTVW-TV.

More room for children's clinic



THE OUTSIDE of the new clinic at 420 So. L St. received a new coat of red and white paint last week.

After the first clinic on Aug. 1, workers were still busy painting and fixing up the new building. When completed, the new clinic will have a fresh coat of paint on the outside as well as carpets and curtains on the inside. The clinic staff is encouraged by the improved appearance of the new building.

On the first floor of the clinic, is the entry and reception area. Next to this room is a carpeted room where patients are interviewed. Also on the first floor is a waiting room complete with toys for children. The kitchen has been turned into a laboratory and office.

Upstairs are two examination rooms and weighing room. Also upstairs is a restroom.

All clinics are held on Wednesdays from 8:30 a.m. to 11:30 a.m. for children, infant to 19 years old. The telephone number is 272-5736.

Special toothpastes for supersensitive teeth have been available in recent years, and the makers of one of them, Sensodyne, claims that studies have found the dentifrice to help 9 out of 10 patients. They are also making available "Sensodyne Gentle," a new toothbrush for home use that looks like any other, but is especially engineered to make toothbrushing and polishing easier for individuals with a sensitivity problem. It is also used like any other toothbrush.

However, the company advises that anyone with toothache or pain is best advised to see a dentist to check for cavities, periodontal disease, or any other problem that may be causing discomfort, including "dental hypersensitivity."

The new musical sensation, "Welfare", out of Monterey, California, performed at the Fort Lewis Special Services Beach Sunday afternoon. They drew the majority of the population in the area to cover the hillside, which seemed to move as they blasted music all over the beach. Lead vocalist, Harvey Knight, broke down with a mellow version of, 'Who Am I', which brought the crown to a stunned whisper. Steve Blume, star on the Hammond organ, spiced the music with his bad keyboards. Welfare consists of nine members. Leader, Avelino Pitts, music master of five different instruments, performed at his best. Welfare has performed with famous entertainers like Ike and Tina Turner, Tower of Power, Cold Blood, B.B. King, and Aretha Franklin.

I am somebody, even if you see me on the corner or in a bar, I still can say HI.

I am somebody other than the name the White man gave me (Nig-ger).
I am somebody even though I was forced to live in this land.

I was here when this land was not hing: compared to what it is today.

"Who am I?", you ask;
I'm Afros, French Braids, and Isaac Hays;
I'm the voices of great Black singers, I'm strength, courage, and determination.

Food For Thought

G.M. Batie

Fresh Frozen Food

As the best kitchen invention, freezers would probably win the homemakers nod. Having food kept "fresh" for months at a time is a real boon to serving delicious dishes year round. Quickly freezing foods locks in all of the flavor and nutrition.

Meats can ' e wrapped in freezer paper, aluminum foil or another wrap which adheres closely. Never freeze or store meat in the market wrapper.

Chili A La Creole

1½ cup chopped onions
1 cup chopped bell peppers
3 tablespoon oleo
2½ lbs ground meat
3-15 oz cans of chili beans
1 clove garlic, chopped
1 teas. chili powder
2-8 oz cans tomato sauce
4 cups cooked rice
salt and pepper

Cook onions and bell peppers in oleo. Add ground meat; cook until brown. Heat chili beans tomato sauce, garlic and chili powder. Add to meat mixture. Add rice and season to taste. Serve on toast while hot. Yield 10-12 serving.

A SMALL TOWN PAPER reported that a newcomer, who had moved there to escape the traffic and congestion of the city, was run over by the Welcome Wagon.

FASHIONABLES By Denise

If you keep things long enough, they will eventually come back in style. In the department stores, the sling pumps with the small high heel and pointed toe have reappeared. For you lovers of small handbags, the clutch is back. It is roomy and double-pocketed. The oversized clutch can be converted in to a shoulder bag; the strap disappears when not in use.

The Quilted Look is definitely "in" for blouses, skirts and most anything else. Just be sure the materials used will not fade or run. In quilting, be certain the stitches are short; long stitches will easily break.

In Paris, Gabriel Italici has come up with a bri lliant idea. Dial-A-Dress (for those affluent women who hate to shop or who say they have nothing to wear for a very special occasion) can have a beautiful creation ready in 24 hours. Why not such a shop in our city?

For these warm evenings, a flowery print pantsuit on dark background of nearly sheer, lightest of fabrics, is just the thing for summer comfort

The terry cloth, which used to remain in the bath, has taken to the street. The terry can be made fashionable into pull-tie pants and shortie tops for lounging, jogging or beachwear.

The Caftan, so popular with the women, has also found its place with the men on the beach or at-home lounging.

Dear Tac-Vac

by: Ted Jefferson

Dear TAC VAC:

Q--When a military retiree employed by the federal government gives up his military retired pay to combine that service with civilian employment to retire under civil service, will his monthly payment be based on the highest earnings, military or civilian?

A--Only the civilian earnings will be considered in computing his monthly retired pay, unless military service was during a furlough from a federal civilian position. The years of military service will, of course, be counted as federal service in computing the annuity from civil service.

Q--I am retired from the Army. I have waived my military retired pay for VA disability compensation. If anything happens to me, can my wife get a VA pension or DIC and the Survivor Benefit Plan, or just one benefit?

A--A retiree's widow may receive both VA death pension and Survivor Benefit Plan annuity at the same time. However, the SBP annuity counts as income for VA pension purposes. When VA DIC is paid to a widow for the retiree's service-connected death, only that portion of the SBP annuity exceeding DIC will be paid. In such cases, a percentage of the retiree's contributions corresponding to the portion of the annuity not payable will be refunded to the beneficiary. Under certain circumstances, it is possible for a retiree's widow to draw VA pension or DIC and the SBP annuity.

How to save money on your Long Distance calls.

1. Dial direct whenever you can.

When you dial interstate calls direct from your home or office phone without operator assistance, you can almost always save. For representative rates and details on when dial-direct rates are applicable, see the rate chart below.

2. Call at the times when rates are lowest.

Interstate Long Distance rates—especially dial-direct rates—are lower on weekends, in the evening and late at night. Savings can be big, as you can see from the rate chart.

3. Plan your conversation in advance.

If you know in advance what you wish to talk about—perhaps even make some notes—you'll be able to share more news and get more accomplished in less time. And this will save money.

4. Call person-to-person only when absolutely necessary.

Person-to-person calls are far more expensive than station-to-station calls—especially dial-direct station calls. In some cases, as indicated in the rate chart, you can get more than two dial-direct calls for the price of one person-to-person call.

Coast to Coast Long Distance rates

		Station-to-Station Dial-it-Yourself	Station-to-Station Operator-Assisted	Person-to-Person
Weekends	8 a.m. to 11 p.m. Sat. and 8 a.m. to 5 p.m. Sun.	70c first 3 minutes	$1.40 first 3 minutes	$3.55 first 3 minutes
Evenings	5 p.m. to 11 p.m. Sun. through Fri.	85c first 3 minutes	$1.40 first 3 minutes	$3.55 first 3 minutes
Nights	11 p.m. to 8 a.m. daily	35c* first minute (minimum call)	$1.40 minimum call (3 minutes)	$3.55 minimum call (3 minutes)
Weekdays	8 a.m. to 5 p.m. Mon. through Fri.	$1.45 first 3 minutes	$1.85 first 3 minutes	$3.55 first 3 minutes

Rates shown (tax is not included) are for the days, hours and durations indicated, and for the types of calls specified at the head of the columns. Rates may be even less, of course, on out-of-state calls for shorter distances.
These dial-it-yourself rates apply on all coast-to-coast interstate calls completed from any non-coin telephone without operator assistance or from any non-coin phone where direct dialing facilities are not available. Dial direct rates do not apply to person-to-person, coin, hotel/motel guest, credit-card, collect or to calls charged to another number, because an operator must assist on such calls.
*One minute minimum calls available only at the times shown, and additional minutes are 20c each, coast to coast.

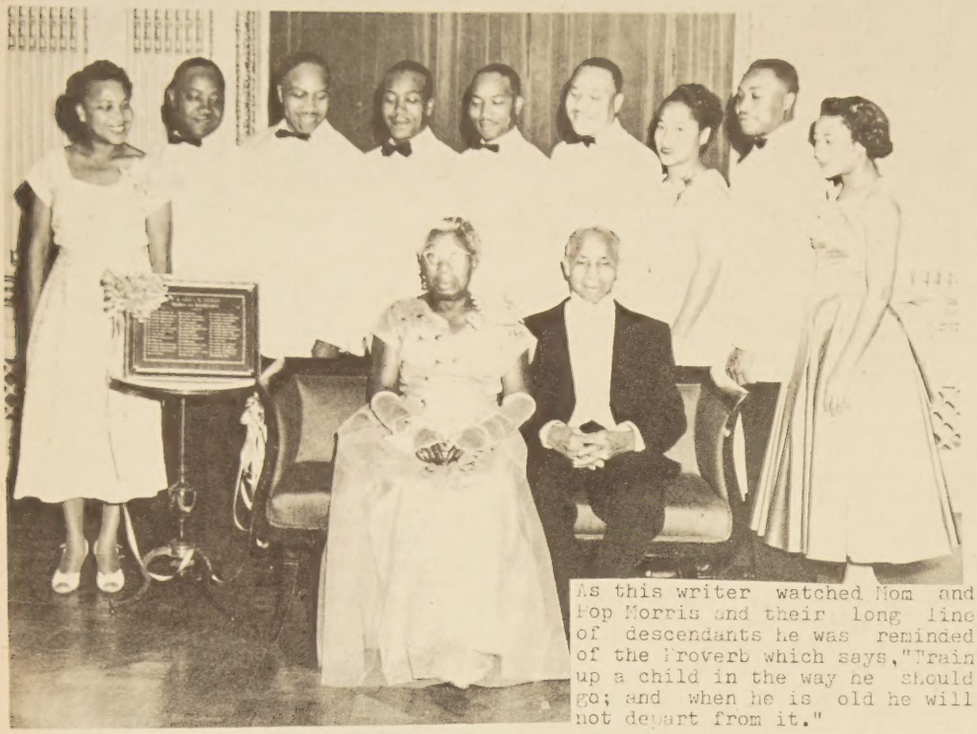
Morris family has reunion

By Cyril A. (Cy) Edwards



Mom and Pop Morris and Children.
From left to right: Lillian, Chester, Lorenzo, Edwin, Roger, Robert, Mabel, Walter and Lezetta.

As this writer watched Mom and Pop Morris and their long line of descendants he was reminded of the Proverb which says,"Train up a child in the way he should go; and when he is old he will not depart from it."

Last week four generations of Morrises converged on Tacoma for one of the largest family reunions ever held in this city. They came from Massachuetts, from New York, from Illinois, from California, and from Washington. One even flew in from Germany.

As was fitting, the one-week reunion started with the arrival of Mom and Pop Morris from Boston. This had to be the happiest trip of their lives. It would be the first time in many, many years that they would have all of their nine children - six sons and three daughters - together. It would also be the first time that they would see their 19 grandchildren, six great grandchildren, sons-in-law and daughters-in-law together as a family unit.

When the last of the clan arrived there were over 70 Morris progeny assembled for the reunion. They ranged in age from a baby of a few months to Mom and Pop who are somewhat older - 86 and 88 years respectively to be exact. They covered a broad range of technical and academic accomplishments. They included social workers, a registered nurse, master electricians, aerospace mechanic, labor representative (CIO), retired businessman, dietician, college professor, pharmacist, instructor of mathematics, orthopedic surgeon, school principal and many others of outstanding technical and professional abilities.

The week's celebration started with a family banquet at the Royal Forks in Bellevue. Next, there was a hospitality hour at the Caballeros Club in Tacoma for friends of the family. After a day of recuperation, the family traveled by charted bus and private automobiles to Mt. Rainier for an old-fashioned picnic.

On Sunday the family attended services at Bethlehem Baptist Church. Later, they had brunch at the City Association of Colored Women's club house. The planned activities for the week concluded with a reception at the same place.

This writer has deliberately avoided mentioning names or individual accomplishments because in a situation such as this inevitably someone or some accomplishment would inadvertently be overlooked. But three couples must be given special recognition: Mr. and Mrs. Robert Morris and Mr. and Mrs. Edwin Morris of Tacoma and Dr. and Mrs. Gideon of Seattle. (Mrs. Gideon is the former Miss Lillian Morris).

These three couples made all of the arrangements for the reunion. For months they met regularly to set up schedules, arrange for lodging, obtain catering services, keep the family informed of developments and generally coordinate the various activities. The result of their effort was a well organized family reunion.

One can only imagine Mom and Pop Morris's thoughts as they watched their progeny. Thoughts of the bleak days in their native Alabama trying to raise nine children. Thoughts of the strugle in Boston to which city they had moved.

Washington students to receive aid

About 12,000 Washington State students will receive grants for post-high school education under a new program called Basic Educational Opportunity Grants.

The new program offers financial aid to first year students enrolled full time in an approved college, university, vocational school, technical institute, or hospital school of nursing. Maximum grants will probably range from $500 to $600 with an average grant about $240.

Amounts of grants will be determined by a formula established by the U.S. Office of Education which shows how much the parents should be expected to contribute. Applications are being taken now and forms are available at Tacoma Model Cities, Department of Human Development, financial aid offices of post-secondary institutions, high school guidance offices, post offices, and State employment offices.

From 2½ to 3 million dollars may be available for the first year of this federal program.

Other forms of federal student aid such as Supplemental Educational Opportunity Grants, College Work-Study, National Direct Student Loans, and Guaranteed Student Loans are available in addition to Basic Grants.

To apply for a Basic Grant, an "Application for Determination of Expected Family Contribution" must be completed and mailed to P.O. Box B, Iowa City, Iowa 52240. Within a month the student is notified of the amount his family is expected to contribute. He then submits the notification to the school of his choice, which calculates the amount of the Basic Grant.

For further information on Basic Grants and other student financial aid programs, students should contact their high school counselor or the financial aid officer at the school in which they expect to enroll.

IT DOES a man no good to sit up and take notice if he keeps on sitting.

Some Americans rarely brush their teeth, studies have made known, and there are even some who do not brush at all. Reasons for this have been stated as simple neglect, ignorance of the importance of preventive dentistry, and in some cases, fear. For these individuals toothbrushing means pain--to be avoided. The pain may be caused by cavities, or by overly-sensitive teeth.

YOUNG GIRL CAPTURES RAPIST

While waiting for a bus, a young attractive girl was grabbed from behind and dragged into an alley. As her assailant tried to rip her dress off, she fired one burst at his face. Instantly he let her go and staggered around blindly, coughing and gasping. He later confessed to raping over a dozen women in the area. This girl and possibly others were saved from a vicious sexual attack.

Sign warning aired by TPD

Persons who attach signs advertising garage or yard sales, political activities or campaigns and similar events to public property such as power poles or traffic signs may be cited for breaking the law.

Signs may be temporarily installed on a parking strip or private property providing a person has the property owner's permission, but the installer should remember to remove same when the original purpose has been served.

"some of the signs have been installed as far as ten blocks from a garage or yard sale," Smith added. "Often times, they are posted without people even considering the property owner's permission. We're not trying to stop such sales, but are asking the public to be more thoughtful in advertising these locations."

Capt. William W. Luebke, Traffic Division Commander, said the signs were also creating some traffic hazards. "Motorists are slowing down to read the signs and thereby impeding traffic. In addition, some signs are so large they impair vision for pedestrians and motorists alike."

Spotlight on HEALTH

Of every 100 Americans, fewer than five go through life without decay. By the time school age is reached, the average child has had at least three decayed teeth, the Department of Health, Education, and Welfare reports. And, of children over fourteen, 75 to 80 per cent have some form of gum disease.

By the time people reach middle age, two out of three have serious gum problems and may well be on the way to losing all of their teeth. This is not so surprising perhaps, when one considers that 10 per cent of the population have never visited a dentist.
